

SOS FOR FIRE SYSTEMS

SOS For Fire Systems

Trading & Contracting Company for Fire Protection Solutions

Managing Director
Mr. Waleed Abd Elhamid

Executive Director
Eng. Ahmed Nour

“COMPANY PROFILE”

SOS Established in June, 2019 as Firefighting solutions Provider, Our Partnerships Put Us among Best fire protection solutions Provider Companies in EGYPT.

Providing best-engineered solutions for Fire Protection Depends on Best Quality of Best Products in this field, as a result we are trusted partner and main technical support for firefighting solutions with Egyptian Army Firefighting Authority and Ministry of interior security.

SOS main objective is to be the Middle East market leader. We are keen to be always updated with the latest technologies related to all products we are selling. We hire experts with highly motivated spirits in all fields we are working in. We seek to insure achieving highest growth in our market share by searching for our customers' needs and problems and directing them to the appropriate solutions from our wide range of Products and Services. We reach this approach with our customers by providing high quality services, consultancy, pre-sales, sales and post-sales support. SOS is proud to be one of the most respectful Firms in the market who manages to combine value added Integrated Solutions and ethics.

Vision

We collaborate with our customers in MENA region to help them achieve their business goals and objectives by providing them with latest technologies & state of art cost effective solutions and services. We help developing countries that we operate in, with such solutions, and by developing humans through training and experience.

Mission

To be a regional pioneer and major force in providing and integrating innovative Fire Protection Solutions and services. Our solutions & services will help our clients and partners achieve their business objectives with high satisfaction. We aim to deliver this through very highly qualified, equipped & certified individuals at top quality service.

Objective

To be the industry leader in Electromechanical Engineering, Fire Protection in the Egypt and the whole of the Middle East region. Providing innovative, efficient, and cost-effective solutions to client issues and concerns. Focus on enabling employees to attain advanced knowledge and skills through continues training programs to meet client's specific needs.

Our Objectives:

- **Our main goal is to convert services provided by other companies - specialized in this area- to distinct services at competitive reasonable prices for our targeted customers by acquiring full satisfaction during and after the completion of the sale.**
- **Our aim is to gain our clients' trust and outstanding expectations by providing the extraordinary support and technical consultancy through our outstanding and qualified team.**
- **To continuously dealing with our great-value customers - towards long term success.**
- **To reduce all human and technical capabilities with wide experience in order to satisfy the needs and wants of each client.**
- **To provide reasonable balance between the price and the quality of outstanding services to our customers.**
- **To gain a "Win-win" relationship is one of our ultimate goals.**

Our Services:

- **Supply / Install firefighting equipment's**
- **Supply and install firefighting networks and pump rooms**
- **Supply and install CO2 and FM200 systems.**
- **Supply and install Kitchen hood system.**
- **Provide maintenance and after-sales services.**
- **Supply and install Pipes, fittings (ERW / Seamless pipes)**

Fire Protection and Safety

Fire protection and safety is important in order to prevent panic and tragic losses during fires. It can help in minimizing the amount of casualties. Building, whether used for living, working, entertainment or for other purposes, forms an integral and major constituent of human habitat. As a sequel to the all-round socio-economic progress, and the steady urbanization processes gathering momentum all over our country for the past few decades, there has been enormous increase in the number of buildings of all classifications, including high-rise and special buildings, especially in the urban and surrounding areas.

With the technological advances on all fronts, not only the factor of susceptibility, but the complexity of fires, explosions and the hazards which these buildings are exposed to have also increased manifold. These hazards have been instrumental in causing heavy losses in lives and property throwing up fresh challenges to planners, architects and fire protection services in evolving better and improved methods of design and fire protection in order to mitigate such losses.

Investments in fire protection are crucial. "Inadequate fire protection features were a major contributing factor to the significant number of deaths and injuries in addition to economic losses"

SOS FOR FIRE SYSTEMS

- The provisions of all material, labor, equipment, and services necessary to install complete, tested, and ready for operation the FIRE SAFETY Systems in accordance with the Specifications and Drawings.
- Provide all work described in the Specifications and not shown on the Drawings, or vice versa, in complete working order. If mention has been omitted of any item of work or material, necessary for completion of the system, then such items must be and are hereby included.

Installation and Testing

Installation and testing services are important elements for systems integrators SOS has the highly skilled and trained engineers who are empowered with tremendous experiences, which insure achieving the project and clients objectives.

Warranty and Maintenance

Management is crucial for a wide assortment of industries, and it can have a direct on customer perceive brands. Warranties provide assurance against defective products that fails to perform satisfactorily over the warranty period. This assurance reduces risks associated with purchase of the product. SOS offers a comprehensive warranty and maintenance management services that tackles of these issues and ensures a smooth supply chain.

BUSINESS PARTNERS

SOS is always proud to work with the “best of breed” in the field of Firefighting and low current solutions. Through close relations with technology providers, the company is able to demonstrate committed partnership in the business. It also shows SOS’ ability to offer timely, relevant and efficient services to its clients. The following figures, demonstrates the business partners in different technologies
